

HODGES' BANKING & FINANCIAL PUBLICATIONS.

Hodges' Journal of Finance and Bank Reporter,
—AND—
HODGES' NEW BANK NOTE SAFE-GUARD.

JOURNAL OF FINANCE AND BANK REPORTER.

The most complete, ably conducted and accurate publication of the kind, claims among its merits in comparison with other Reporters—

Correct and Early Descriptions of Counterfeits,
County and Town Location of every Bank in the Union,
Style and convenience of arrangement and artistic execution,
Reliability of Quotation Rates for Money, and early information of
Bank failures,

Five times more information, and original matter for daily reference,
and pertaining to Banks,

A full and true List of Doubtful, Weak and Unsecured Banks, cautioning
the public against them in advance of their failures,

And lastly, the Largest Subscription Lists of any Reporter in the Country.

THE SAFE-GUARD.

A large and splendidly bound volume of about 400 pages—14 inches in length and
ten inches in width, published at an expense of over \$20,000—having taken five
years of constant labor in its compilation, and containing upwards of
12,000 fac-simile descriptions, comprising every genuine bill,
of every denomination, of every Bank in the United
States and British Possessions.

COMMENDATION FROM ALL THE FIRST CLASS BANK NOTE ENGRAVERS IN AMERICA.

J. TYLER HODGES:—

SIR,—Having examined the plan of your New BANK NOTE SAFE-GUARD, and your JOURNAL
OF FINANCE and BANK REPORTER, we take pleasure in expressing our unqualified approval of
the same, as affording a simple and effectual Protective against Fraudulent Paper Money.
Works of this nature have long been required, and should receive universal patronage from
the business community.

Half-Joe, 8 50

NOTE.—It is not uncommon for Doubloons and parts of Doubloons to be light—Doubloons should be as heavy as American dollars. An act of Congress, March 3, 1843, legalized this kind of gold at 89 cents 9 mills per dwt. When light its true value may be got at by weighing it with American silver, allowing 77 cents for the weight of a five cent piece. Portugal and Brazil pieces can be tested by allowing 80 cents for the weight of a five cent piece.

SPAIN and MEXICO.—GOLD COINS.

* The Double Ducat, (value \$4,40,) so closely resembles the Sovereign, as to be distinguished only by its weight, being a thinner piece.

The foreign gold circulating in this country, will average 1 to 2 per cent less than the standard; we have therefore made our quotations to correspond with the weight of each piece.

COINS OF THE ROMAN GOVERNMENT.

In use over 2,000 years ago; obtained expressly for this Manual.

GOLD COINS.

Below are fac similies of the coins used by the Ancient Romans. They have been got with great expense, on account of the distance of bringing and difficulty of obtaining them. The pieces from which the drawings were taken, lay concealed in the coffers of the great Amphitheatre at Pompeii for over 1700 years. They were taken out at the excavation which is now going on, and transferred to the Museum at Naples, from which place we obtained the drawings. Little can be said, as nothing is known relative to their value, at that time. We do not insert them as a matter of utility, but as a relic of antiquity. To the antiquarian, statesman, and philosopher, this will be a great treat.
